

COMMUNICATIONS & DATA ENCRYPTION SOFTWARE

# SalaX Secure Collaboration: Your channels for sharing confidential, restricted, or secret information

## Why SalaX Secure Collaboration?

With SalaX Secure Collaboration, you can:

- Avoid non-compliance and large regulatory fines
- Build authorized channels for your sensitive communications
- Keep your data under your control: on-premises, in private cloud or public cloud
- Allow verified-only external stakeholders to send confidential messages to you directly from a web browser
- Send large attachments (up to 5GB)
- Verify senders and recipients (MFA, OTP, PIN, SSO, or bank ID)
- Get a solid audit trail of activities and evidence of sending/receiving communications
- Stay protected by strong encryption (AES-256, Olm, Megolm)

## What our customers say about SalaX Secure Collaboration:

### NEW SALAX SECURE COLLABORATION:

#### SalaX Secure Messaging 2024

Communicate securely with end-to-end encryption. Control all your real-time communications (instant messaging, voice and video calls) with flexible deployment on-premises or in the private or public cloud.

#### SalaX Secure Mail 2024

Send and receive encrypted emails without end-user accounts or complicated maintenance. Integrates easily with all email providers.

#### Secure Rooms

Share sensitive data and documents over the web. Responsive browser interface that works on any devices and allows file sharing without artificial limits.

#### Secure Forms

Collect data easily with a straightforward GUI and a variety of features for creating e-forms. High security to protect your data in transit and keep you compliant (GDPR, WCAG 2.1).

#### Secure Signatures

Sign confidential documents digitally and securely with no end-user accounts. Support for various signing processes, flexible configuration, and various authentication options.

"The solution meets our requirements for data security and data protection very well, and above all, the solution is easy to use for both the sender and the recipient."

One of the key criteria has been that the solution does not require any separate program installations from the recipient."
