Business outlook for 2023

Our business transition from license and support to a recurring-revenue model has continued providing a more stable revenue base. At the end of 2022, our Annual Recurring Revenue was EUR 18.4 million (EUR 15.4 million in 2021). Our net sales grew by 21% to EUR 19.3 million in 2022. Going into 2023, we will continue to focus on increasing the average deal size. We expect net sales to grow during 2023 compared to 2022. We estimate EBITDA and cash flow from operating activities to be positive for 2023.

SSH Communications Security provides alternative performance measures which are not defined by IFRS standards. Alternative performance measures should not be considered substitutes for performance measures in accordance with the IFRS. The alternative performance measures are:

EBITDA = Operating profit/loss + depreciation and amortization.

Recurring Revenue, ARR: Subscription + maintenance revenue at the end of the last month of the reported period multiplied by 12.

Subscription ARR: Subscription revenue in the last month of a reported period multiplied by 12.

Deferred Revenue: Non-recognized revenues from invoiced maintenance and subscription sales.

CEO review

Dear customers, shareholders, partners, and colleagues,

SSH achieved solid progress during 2022. Net sales grew by 21% to EUR 19.3 million, and EBITDA grew by 139% to EUR 2.7 million, representing 14% of net sales. The fourth quarter sales of EUR 5.8 million (EUR 6.0 million in Q4/2021) almost reached the previous year's level, which included significant license sales.

We have continued on a successful journey of selling innovative and future-proof technologies to major global corporations, increasingly through a subscription model. Deferred revenue increased strongly by 57% to EUR 14.1 million, driven by several major multi-year subscription and maintenance contracts. Subscription Annual Recurring Revenue grew by 36% to EUR 9.9 million, while Total Annual Recurring Revenue, also including maintenance revenues, grew by 19%, reaching EUR 18.4 million.

Operating cash flow was EUR 3.0 million for the year, while cash position decreased due to Deltagon installment and financing

costs. We continued to invest in long-term growth, including R&D, sales and marketing, and innovation with key customers, and we remain well-prepared for the future.

SSH won several new customers over the last quarter. Privileged access management solution PrivX gained multiple Managed Service Providers (MSPs) and Operational Technology (OT) customers, and a major Fortune 500 global financial services institution expanded the use of Universal SSH Key Manager to cover their entire corporate network. These wins demonstrate technological excellence as well as an outstanding service level in our professional services and support.

In the fourth quarter, PrivX subscription revenue grew by 96% compared to Q4 2021. We added several new features to our passwordless PAM solution, PrivX, such as real-time connection monitoring, post-quantum cryptography algorithms, and user and behavior analytics. These advancements ensure that PrivX continues to have the most attractive total cost of ownership thanks to its straightforward implementation and broad set of features.

Additionally, as quantum computing becomes a reality, we continue to lead the way in developing postquantum-safe solutions. In November, we launched the world's first quantum-safe data communications software for mainframes by upgrading Tectia SSH Server for IBM z/OS with quantum-safe capabilities, and we are updating the rest of our solutions to include post-quantum encryption. The NQX encryption solution also continued its quarterly revenue growth by winning public and private sector customers.

Our commitment to providing winning solutions for digital communications between systems, applications, and the people operating them remains unchanged while improving financial performance. I would like to thank all members of SSH and partners for contributing to our all-hands-on-deck approach, delivering outstanding achievements in 2022, and establishing a great base to build upon in 2023.

Share capital and board authorizations

The company's registered share capital on December 31, 2022, was EUR 1,189,893.18, consisting of 39,663,106 shares.

The Annual General Meeting approved the Board of Director's proposal to authorize the Board of Directors to decide upon the issuing of a maximum of 6,000,000 shares as a share issue against payment or by giving stock options or other special rights entitling to shares, in accordance with Chapter 10 Section 1 of the Finnish Companies Act, either according to the shareholders' pre-emptive right to share subscription or deviating from this right, in one or more tranches. Based on the authorization, it can be either issuing of new shares or the transfer of own shares, which the company may have in its possession.

Based on the authorization, the Board of Directors shall have the same rights as the Annual General Meeting to decide upon the issuing of shares against payment and special rights (including stock options) in accordance with Chapter 10 Section 1 of the Finnish Companies Act. Thereby, the authorization to be given to the Board of Directors includes, inter alia, the right to deviate from the shareholders' pre-emptive rights with directed issues providing that the company has a compelling financial reason for the deviation with respect to the share issue against payment.

Furthermore, the authorization includes the Board of Directors' right to decide upon who is entitled to the shares and/or stock options or special rights in accordance with Chapter 10 Section 1 of the Finnish Companies Act as well as upon the related compensation, subscription, and payment periods and the registering of the subscription price into the share capital or invested non-restricted equity fund within the limits of the Finnish Companies Act.

The authorization will be valid until the next Annual General Meeting but will expire at the latest on June 30, 2023.

The Annual General Meeting approved the Board of Director's proposal to authorize the Board of Directors to decide upon the acquisition of a maximum of 2,000,000 own shares of the company with assets belonging to the company's non-restricted equity, which amounts to approximately 5.0 percent of the company's total shares. The shares can also be acquired other than in proportion to the holdings of the existing shareholders. The maximum compensation to be paid for the acquired shares shall be the market price at the time of purchase, which is determined by public trading.

The Board of Directors proposes that the authorization for the acquiring of the company's own shares would be used, inter alia, in order to strengthen the company's capital structure, to finance and realize corporate acquisitions and other arrangements, to realize the share-based incentive programs of the company or otherwise to be kept by the company, to be transferred for other purposes or to be canceled. The acquisition of shares reduces the company's distributable non-restricted equity.

A decision concerning the acquisition of own shares must be made so that the combined amount of the own shares, which are in possession of or held as pledges by, the company or its subsidiaries, does not exceed one-tenth of all shares. The Board of Directors shall decide upon all other matters related to the acquisition of shares.

The authorization will be valid until the next Annual General Meeting but will expire at the latest on June 30, 2023.

Risks and uncertainties

Substantial risks that might affect the profitability of the company have been reviewed and updated to reflect the current macroeconomic environment.

The largest risks are:

- Refinancing risk/liquidity risk, such as being unable to pay obligations due to insufficient liquidity or difficulties in raising financing
- Cybercrime, including e.g., ransomware
- Delays in product development and closing new business as well as phasing of new business cases Ability to execute the strategy
- Ability to retain and recruit key personnel
- Maintaining the ability to innovate and develop the product portfolio, including intellectual property rights (IPR)
- IPR litigation and utilization of the patent portfolio
- A large portion of the company revenue is invoiced in USD currency, and possible significant fluctuation in the USD exchange rate could have unpredictable effects on profitability. The company decides on hedging of USD-based contracts case by case.
- Uncertainty of the macroeconomic environment, such as effects caused by the war in Ukraine or a pandemic

Impact of higher inflation and increasing market interest rates which may have an effect on increasing operational and financial costs

Notes to the financial statement release

The financial statement release for the twelve months reporting period that ended December 31, 2022, has been prepared in accordance with *IAS 34 Interim Financial Reporting*. This financial statement release does not include all the information and disclosures required in the annual financial statements and should be read in conjunction with the consolidated financial statements for the year ended December 31, 2022. The presented figures have been rounded from the exact figures. The financial year 2022 figures published in this financial statement release are audited.

The accounting policies adopted for this financial statement release are consistent with those applied in 2022 consolidated financial statements, except for the adoption of new standards effective as of January 1, 2023. The Group has not early adopted any standard, interpretation, or amendment that has been issued but is not yet effective. The new standards and amendments had no impact on the financial statement release of the SSH Group.

Business combinations

No acquisitions or divestments were done in 2022.

2021

On April 26, 2021, the Group's subsidiary Kyberleijona Oy acquired 100% of the voting shares of Deltagon Oy, an unlisted company based in Finland that develops and sells secure messaging and transaction solutions to various industries, including finance and the public sector. A majority of Deltagon's revenue is generated from the secure email messaging solution Sec@GW which has been certified by the National Cyber Security Authority at the Finnish Transport and Communications Agency (NCSA-FI) for protecting classified information according to the Finnish national (FI) ST III and ST IV security requirements. The Group has acquired Deltagon because it complements SSH's product and services portfolio and creates synergies in product development, developing future quantum resistance, and leveraging international sales and marketing channels. The acquisition has been accounted for using the acquisition method. The consolidated financial statements for 2021 include the results of Deltagon from the acquisition date of April 26 until December 31, 2021.

Details of purchase consideration, the net assets acquired, and goodwill are as follows:

Analysis of cash flows on the acquisition	
Net cash acquired with the subsidiary (included in cash flows from investing activities)	1.4
Cash paid	-6.0
Net cash flow on acquisition	-4.6

The total purchase price was EUR 17.4 million. A cash component of EUR 5.0 million was paid at closing, EUR 1.0 million in July, and EUR 5.4 million of consideration shares were recognized in equity. The deferred purchase price of EUR 4.9 million consists of the present value of three additional installments of EUR 1.67 million to be paid in the years 2022, 2023, and 2024. The installments have been discounted at the estimated cost of debt (2.1%). A closing adjustment of EUR 1.5 million was based on the net cash position and net working capital adjustment on the closing date.

The goodwill recognized is attributed to Deltagon's profitably growing business with a strong position in the domestic messaging security market, new international business, and a wide customer base.

Transaction costs were not significant and have been expensed and included in the administrative expenses in profit or loss.
